DIAMOND HEAD, Nov. 8, 10 P.M. —Weather, hazy; wind, high N.E.

The Waialeale sailed for Maui and Hawaii yesterday.

The J. A. Cummins will sail for Oahu ports on Monday.

Freight of the S. G. Wilder will be out by this afternoon.

There were no arrivals on the Inter-Island line yesterday.

The S. N. Castle took rice from the Oceanic warehouse yesterday.

The Kaala discharged her sugar into the Oceanic warehouse yesterday.

The Kilauea Hou arrived from Hawaii ports yesterday. She reports high winds.

The main topgallant mast of the City of Adelaide was taken down for repairs yesterday.

The Waimanalo will sail for Oahu ports on Monday. She is undergoing slight repairs.

The Kinau sailed on her regular route to Maui and Hawaii yesterday morning. She took away quite a number of kamaainas.

The S. N. Castle will not sail until next week. The Hawaii brought no sugar for her; consequently she will have to bide her time.

Men along the water front are very glad that repairs have been completed on the clock tower and that the hands are set in motion again.

The Marie Hackfeld has 400 tons of coal left which she will retain until she takes on some sugar from the Mikahala next Monday.

The Marie Hackfeld is being painted while she waits.

The W. H. Dimond has finished discharging and is now alongside the S. N. Castle. The Dimond made a good record in discharging.

In all probability the freight will be delivered from the Oceanic wharf today.

The Right Sort of Boy. Here's to the boy who's not afraid To do his share of work;

Who never is by toil dismayed, And never tries to shirk.

The boy whose heart is brave to meet All lions in the way; Who's not discouraged by defeat, But tries another day.

The boy who always means to do The very best he can; Who always keeps the right in view, And aims to be a man.

Such boys as these will grow to be The men whose hands will guide The future of our land; and we Shall speak their names with pride.

VOLCANOES OF THE NORTH.

Grand Sights Witnessed by the Commodore Perry's Crew.

The revenue cutter Commodore Perry has recently returned from the north sea, where she has been confronted each night for weeks by a gigantic line of fire, says the San Francisco Chronicle.

The line of land lying between the Bering sea and the Pacific ocean belongs to the United States, and on them are the only active volcanoes lying within American territory.

Nowhere else on the globe can such a sight be witnessed in the daytime only when the smoke or steam is visible, as dusk comes and darkness follows the wonder grows.

As a proof of the mighty power that is at work beneath the islands a neck of land has been forced up out of the sea between Bogovol and old Bogovol, and the two islands are one.

A Wood Substitute.

A substitute for the wooden parts in the construction of government ships—something which will neither burn or splinter—has long been a desideratum, and, under official encouragement, has led to some valuable experiments.

FITS CURED

(From U. S. Journal of Medicine.) Prof. W. H. PEEKE, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing.

Indurine

A Cold Water Paint Especially Designed for Inside Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by any one and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

One coat covers better than two coats of oil paint or whitewash. It can be used on any surface and for all classes of work, even for the finest decorating.

Outside Indurine.

This Is for Outside Work.

Such as Fences, Outbuildings and Laborers' Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure, as well as oil paint, and costs but a fraction as much.

Adapted for Dwellings, Offices and Public Buildings, or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

LUCOL. A new Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment than the gallon.

OF INTEREST TO MANAGERS OF PLANTATIONS.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plovers, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and all Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.
